XTREME SHINE PROTECTION

Discover the future of car care with our toughest shine & protection formula. Surpassing ceramics, it repels water effortlessly with a single-layer of Graphene technology. Rejuvenate your vehicle's shine from paint to trim, while supercharging waxes for long-lasting protection without any drying agents!

HOW IT WORKS

Toughest shine & protection - even more than ceramics!

Ultimate H₂O repellency & drying - it hates water!

Adds deep gloss shine to paint finishes - even renews trim!

Super charges ceramics & waxes - eliminates drying agents!

APPLICATION GUIDE

INJECTOR	TIP	MILS USED	APPLICATION COST	NATIONAL FIELD TESTS
Blue	Turquoise	8	\$0.21	Start to see faster breaking
Orange	Tan	10	\$0.26	Start to see a dryer car
Light Green	Light Blue	12	\$0.31	Optimal performance
Light Green	Brown	14	\$0.37	More shine overall - Renew trim
Blue	Pink	16	\$0.42	Tiny nano bead breaking

NATIONAL TEST OBSERVATIONS

Product: Viscosity requires direct injection for optimal performance.

Show: Mostly clear; water-like action on the vehicle.

Application: Last formula used before spot free rinse.

Substitution: Some field tests found no need for a drying agent.

Dilution: Larger tip sizes are needed due to viscosity of formula.
